

Board Policy

Personnel

BP 4112.23

Special Education Staff

Resource Specialists

Note: Education Code 56195.8 mandates entities providing special education to adopt a policy related to resource specialists. Education Code 56362 identifies services to be provided by resource specialists and the qualifications required for directors of resource specialist programs. Districts using the following material should revise it for consistency with the policy and regulations of the SELPA in which the district participates.

The Governing Board shall employ certificated resource specialists to provide services, where required by law, for students who have exceptional needs, their parents/guardians, and school staff.

The resource specialist program shall be directed by a resource specialist fully qualified in accordance with law.

Note: Education Code 56362 provides that resource specialists shall not simultaneously be assigned to teach regular classes.

Note: Education Code 56195.8 provides that after the CDE issues guidelines relating to caseloads for programs for children with exceptional needs aged 3 through 5, entities providing special education will be mandated to adopt policy on caseloads. As yet, these guidelines have not been developed.

Caseloads for special day classes are not set by law and may be determined through certificated collective bargaining agreements. Other special education caseloads are specified in Education Code 56362 and 56363.3. Guidelines regarding caseloads may be included in the SELPA's plan.
