LCAP

Supt. LaMarre presented the LCAPs for Gravenstein Charter, Gravenstein First, and Hillcrest Charter. She explained that the school board will be approving this at the June 24, 2014 board meeting. She pointed out that the English Learner proficiency rates on 2013 STAR are higher than expected. Supt. LaMarre discussed the Truancy rates and indicates that there may be some inaccuracies in how these are recorded in the school offices. A Truancy is the accumulation of 3 or more unexcused tardies in excess of 30 minutes.

Amy Gloeckner inquired about the item that indicates that staff will be trained on proactive techniques to prevent conflict between students. The plan indicates that the training will be provided by a contracted behaviorist. Supt. LaMarre responded that this is a contractor who has been observing students on campus and consulting with staff. This contractor has been hired to meet the needs of students identified as at risk in the LCAP.

Supt. LaMarre inquired about the need for an additional meeting before the school board adopts the plan. Lynda Block indicated that she felt that the draft included all of the items that the LCAP advisory committee discussed throughout the year and was impressively complete. Amy Gloeckner concurred and the committee informally decided that an additional meeting would not be necessary.
